ABOUT ME

As an accomplished .Net Developer, I bring over two years of robust experience in crafting exceptional web and desktop applications. My professional journey is marked by a consistent track record of success in designing, developing, and deploying top-tier software solutions. I possess a strong background in a variety of applications, ranging from web-based to client/server, and sophisticated reporting tools for the desktop environment. I have integrated Microsoft Azure authentication and Google authentication into various projects, enhancing security and user experience. My technical proficiency spans across the .Net Framework, .Net Core, and C#, complemented by a solid grasp of front-end technologies including HTML, CSS, and JavaScript, as well as jQuery. On the database front, I am adept in utilizing both SQL Server and MySQL, ensuring data-driven solutions are both powerful and efficient. My expertise is further enhanced by my skillful use of the Entity Framework, which allows me to deliver projects that meet and exceed expectations.

WORK EXPERIENCE

Software Developer, Orchid Technical Consultancy P Ltd, Kolkata Sep 2021 - Present	<ul style="list-style-type: none">Created comprehensive documentation detailing software functionality for future reference or maintenance purposes.Boosted customer satisfaction rates through timely resolution of reported technical issues during the support phase of projects.Achieved faster development cycles using Agile methodologies, including Scrum or Kanban processes.Optimized application performance by conducting regular code reviews and refactoring when necessary.Improved software efficiency by troubleshooting and resolving coding issues.Increased development speed by automating repetitive tasks using scripts and tools.Mentored junior developers to improve their technical skills, fostering a culture of continuous learning within the team.
